### FENCE GATES

|                                                                                        |
|----------------------------------------------------------------------------------------|
| Gate frames are welded and pickets are also welded at cross members for added strength |
| Top and bottom rails match fence sections                                              |
| Gate uprights are 1-5/8" x .125" wall thickness                                        |
| Order matching walk or drive gates in standard or custom sizes                         |
| Accent gates available for each style                                                  |

### Racking

Fort Mill Ornamental sections can rack up to 30" over 72" when rails are triple punched. Standard punched sections will rack 15" over 72". Specify triple punch when ordering if more than 15" of racking is required.

### General Specs:

- 410 Stainless Steel with Cr6 Plating colored head screws
- Residential sections are offered in 72" long sections. Commercial and Industrial sections are offered in 72" and 96" long sections
- All sections are pre-assembled
- Standard section packaging is 8 or 10 sections per box
- Limited lifetime warranty
